Corona Acrylic Industries

❖❖❖ Fiber Glass Planters ❖❖❖

Corona Acrylic Industries is one of the most respected Fiber Glass Planter manufacturing company located at Morbi, in Gujarat, India.

It is established by **Mr. Ashvin Patel** with a zeal to deliver indoor and outdoor solutions to the Indian markets.

The company started operations in the year **2015**. Since then it has been growing constantly due to the consistent involvement of the top management to build the company and the brand nationally. The founder has been a consistent source of inspiration to the team of Corona to grow big while maintaining quality of products and a sense of team work to deliver good products.

Unexpected Designs...

● VISION

CORONA ACRYLIC INDUSTRIES set up in the year 2005 is a quality, unique and competitive manufacturer of decorative, luxurious and aesthetic fiberglass Bathtubs, Planters, Pots and lifestyle furniture founded by team of technocrats and dedicated people.

● MISSION

We at Corona Acrylic Industries are committed to grow and become number one in design, development and manufacturing of Fiberglass products by protecting and beautifying the world by going GREEN. We place ourselves on par with all the global players and achieve the tag of most unique fiberglass product manufacturers with GO GREEN slogan

● The Company Profile

Pots, Planters & More is the premiere provider of high-quality indoor and outdoor planters for use in restaurants, hotels, retail locations, office buildings, campuses, luxury landscapes and stately homes. Our selection of commercial and residential planters feature sophisticated modern designs and regal traditional pieces, and our hand-finishing process and fiber glass planter options allow a purchase to be completely customized to your space and design aesthetic.

Our planters are made from durable, high-quality materials, and crafted to rigid specifications by trusted designers like Jay Scotts and Crescent Garden. Our products are a favorite of interior designers, architects, landscape designers, project managers, and homeowners with a keen eye and discerning taste.

● Quality At Corona

The founders have maintained high standards of quality since the inception of Corona. The management of the company as down to the workers, all are trained to deliver the highest quality in every aspect of business. From manufacturing, packing to delivery to design to Human resource enhancement, we act with Total Quality Concept.

So you can rest assured that every piece that rolls out of Corona is of the best possible quality. It will serve the purpose it is built for and last for years.
